SIX MILE

49th Annual BULL SALE
AT THE RANCH, FIR MOUNTAIN, SK

Welcome TO SIX MILE AND OUR 49TH ANNUAL BULL SALE

If you are new to the Six Mile program, we'd like to introduce ourselves. We are a family-owned and operated cattle ranch located in the rolling hills of south-central Saskatchewan. Our livelihood depends solely on our hard-working, 600-head cowherd, which we take great pride in. We appreciate your time spent evaluating our bull offering this year and we look forward to the opportunity to speak with you and earn your business. Honesty and integrity are the foundation of our family and our cattle, and we promise to uphold these values in all our dealings.

To our past supporters, we extend our heartfelt gratitude. Our customers are the driving force behind our success, and we are humbled by the trust and faith bestowed upon us by many intergenerational operations who have believed in our program and breeding philosophy. We strive to provide unparalleled customer service and forge lasting relationships with those who invest in our program. Our slogan, 'Where Customers Become Friends,' truly reflects our commitment to building strong and lasting bonds with our customers.

We would also like to thank the people who allow Six Mile to function on a day-to-day basis.

-Clayton and Corinne are not just parents, but also mentors to Callie and I. They show patience and love to our kids and allow us to learn from our mistakes as both cattlemen and parents. Six Mile Ranch is a result of their lifetime dedication and hard work toward building a globally respected program that prioritizes the success of our customers.

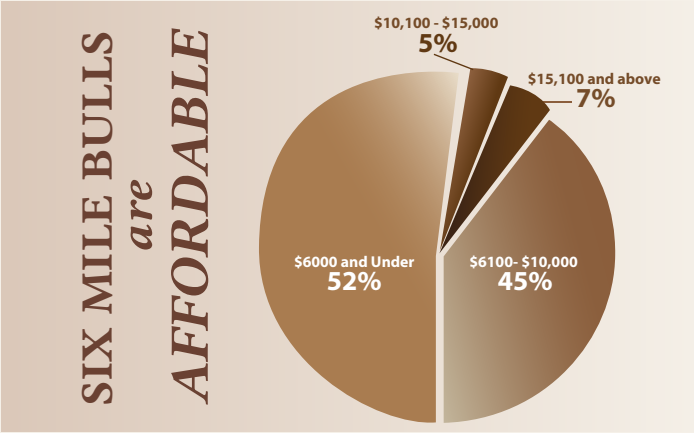

-Cade Gibson, also known as "Uncle Feedwagon", is dependable and intelligent. He works hard and strives towards his goals with a clear purpose. He is able to analyze Six Mile from a broader perspective with innovative ideas to advance our efficiencies.

-Tyson Buist (TyTy), is an indispensable member of our team. I cannot emphasize enough how thankful I am for everything he does for Six Mile and, most importantly, for Sloane, Fowler and Rustin.

Feel free to visit the ranch before the sale day to view the offering. We appreciate the opportunity to earn your business.

Sincerely,

Tyson & Callie Hertz and the entire Six Mile crew

SCHEDULE of EVENTS

FRIDAY, APRIL 5
Bulls Available for Viewing all day
Refreshments and Supper Available

SATURDAY, APRIL 6
Bulls Available for viewing up until sale time
11:30 Lunch Served
1:30 Sale Time
After sale refreshments and socializing

Clayton, Corinne, Cade and Coy Gibson, Tyson, Callie, Sloane, Fowler, and Rustin Hertz

CLAYTON GIBSON - *Owner - Manager*

Our quiet "Go To" guy for everything - Loves fixing machinery the rest of us break - Head bale/ cattle hauler - George Strait impersonator - Hard Working - Committed Cattleman

CORINNE GIBSON - *Owner - Manager*

True Angus Characteristics - Maternal, Easy Fleshing, Stubborn - Deeply loves her cattle, second only to her kids/ grandkids - Adores Hand Warmers & Wool Socks - Boss or maybe just Bossy

TYSON HERTZ - *Purebred Operations Manager*

Heart and Soul of Six Mile - Surprisingly Introverted - Incredibly Talented Cattleman - Horrible Mechanic - Passionate Cattle Judge - Dedicated work ethic- Committed to Genetic Improvement - Devoted Dad

CALLIE HERTZ - *Ranch Administrator*

Born to be a Cattlewoman - Highly Organized - Juggler of Many Things - Naturally beautiful - Extremely Efficient - Throws a Mean Right Hook - Does well on very little sleep - The Best Mom

SLOANE, FOWLER & RUSTIN HERTZ

Daily entertainment - Knowledgeable ranch hands - Head Cat herders - Busy Rock Pickers - Loved beyond measure - The reason we do what we do!

CADE GIBSON - *Ranch Foreman*

Great Sense of Humor - Excellent facial hair - Able to see the big picture - Highly intelligent and practical - Believes in Production Efficiency - Independent Determination

TYSON (TY TY) BUIST - *Show & Sale Manager*

Ranch MVP - Highly skilled cattle fitter & cattleman - Terrible cook - Huge heart - The little kids favorite - Easy Going - Dependable and Dedicated - Quick Learner - Big part of our Family

COY GIBSON - *Slave Laborer*

Casual labor when not working as a power engineer or Hunting - Great Mechanical Mind - Early Riser (for hunting only) - Keeps things entertaining - Deep Rooted Love of the Land

RAE TUTOR - *Office Manager*

Tries her best to keep us organized - Longest Standing Six Mile Team Member - Creative Mind- Home Body - Devoted Mom/ Grandma - Efficient - Beautiful heart

SEBASTIEN STEWART - *Marketing*

We are so blessed here at Six Mile. Fourteen years ago, we purchased the Stewart cow herd from Sebastien and Sarah Stewart. Soon after, Sebastien began working with us as our Marketing Coordinator. On our behalf, Sebastien has toured hundreds of ranches building relationships and searching for genetics that would strengthen our herd. Sebastien has exceeded those goals and he and Sarah have become a part of our family. His dedication to the Six Mile program and talent as a cattleman, has been a big part of our success and growth. We are also truly blessed to have the next generation (and the generation after that!) of our family here working at Six Mile. These young cattlemen bring renewed enthusiasm, strong work ethic and incredible talent to our program. It also gives Clayton and Corinne a bit more time to search out new genetics for our herd and visit with our valued customers.

Sebastien will continue to work with us at Six Mile, albeit on a lesser scale than before. He is not retiring and moving to Bali! In fact, Sebastien has taken on a new role in marketing with our good friends, Hamilton Farms. This is a natural fit for all of us. Sebastien will work primarily with Hamilton Farms and we know that he will be a huge asset to this breed leading program. However, you can rest assured that if Sebastien drives into your yard to look at Red Angus cattle, he is definitely there as a Six Mile Team member!

We retain the right to draw In Herd Semen on all bulls

GENERAL SALE INFO

SIGHT UNSEEN PURCHASES If you are interested in purchasing a bull, but cannot make it to the sale, please contact Clayton or Corinne Gibson or Tyson Hertz preferably 48 hours prior to sale day. We will discuss your needs and come up with a list of bulls that will work for you. On sale day we will endeavor to buy bulls on your behalf. Your order will be held in strictest confidence. Your **SATISFACTION** is 100% guaranteed when you have discussed your order with any of the Six Mile ranch team prior to purchase.

PAYMENT TERMS The terms of the sale are cash or check payable at par at the completion of the sale. If you purchased an animal as an absentee bidder, please make arrangements to mail a cheque or wire money within 48 hours of the sale. Free Delivery within 500 miles if paid for within 14 days.

Please contact Clayton or Corinne Gibson prior to the sale, if you require special payment or financing terms.

5 Questions With T BAR

1. In your opinion, what are the top strengths of the Six Mile program?

The first strength that comes to mind is the true depth of quality throughout the cow herd, a typical Six Mile female is gorgeous in phenotype but have all the attributes to be productive in a ranch environment. It takes a team of operators that have genuine cow sense to achieve this, of which we feel the Six Mile program has in spades; arguably the greatest strength of the program are the studious cattlemen and woman behind it. The level of customer service that the Six Mile program achieves is second to none, and the worldwide recognition that the program has is admirable.

2. What three words best describe the T Bar marketing philosophy?

Honesty - Integrity - Respect

3. If Team T Bar could have one super power, what would it be and why?

The ability to fly - so we could all travel quicker and with less restriction.

4. What is your teams top three pieces of advice for prospective bull buyer's?

1. Do your research
2. Buy from a reputable program that you are comfortable with
3. With an all time high cattle market, don't be afraid to further your investment and get the bull you want

5. Does T Bar have a favourite place to stay while travelling to bull sales? Why?

Moosomin - It's home to the Red Barn and the famous Hot Hamburger Platter delicacy, plus the easiest check in process we have.

5 Questions With Bohrson

1. In your opinion, what are the top strengths of the Six Mile Program?

"Where customers become friends" is one of the best mottos in the cattle industry and it resides at Six Mile for a reason. The Six Mile crew is well known in the industry for strong cattle and great customer service throughout the world. When you invest in this program, they will go the extra mile to ensure you are happy and befriend you along the way to ensure your investment is successful.

2. What would Team Bohrson's theme song be and why?

One Headlight from The Wallflowers because we've crashed into more deer and cougars in this past year driving than the first 12 years combined.

3. What is your craziest travel story?

Blairs.Ag Bull Sale a few springs ago during a brutal snow storm saw us turning a simple 30 minute drive from Sedley to Regina into a 7+ hour trip with much of it stranded on the side of the road because of no visibility. Eventually we were forced to go for it with a low tank of fuel as we hung our heads out the window throughout the snow storm to see the lines on the highway and eventually got there.

4. If Team Bohrson could have one super power, what would it be and why?

Teleportation - no question, it would be a game changer to be able to eliminate travel and also sleep at home every night with our families vs the hectic life on the road.

5. What three words best describe the Bohrson Marketing Philosophy?

Integrity - Hard Working - Family

5 Questions With Peterosa

1. In your opinion, what are the top strengths of the Six Mile Program?

When I think of the Six Mile Program, several points come to mind. First, world class genetics. Six Mile simply are searching for the best genetics for their program, no matter the cost so they can continually offer their customers the newest gene pool available. Second point is quality cattle that are developed under ranch conditions that have the ability to excel in the show ring and on the range. Third point is the involvement of the next generation in continuing to keep the Six Mile program at the forefront.

2. What three words best describe the Peterosa marketing philosophy?

Honesty, Knowledge and Relationships

3. What's one unique skill or talent you possess that people might not be aware of?

Fluent in Spanish. I read, write it and speak it.

4. What would your theme song be and why?

The theme song from the movie Bonanza and the Ponderosa ranch. This is where the name PETEROSA came from many years ago.

5. What are your top three pieces of advice for prospective bull buyers?

Take the time to research the animal/animals you are going to buy. Ask for the advice of the owners and consultants and use this along with your own thoughts and ideas to decide what works best in your program. And don't cheap out on purchasing your next herd sire, after all, he is one half of your breeding program.

U.S. Exchange

U.S. Exchange  U.S. funds will be accepted at the current rate of exchange sale day and will be posted prior to the sale. The U.S. dollar is currently at a big premium in Canada giving our U.S. customers added buying power and value.

Calving Ease Guide

Every year the most frequent question we receive is which bull will work on heifers. Well.....only you know your heifers and must consider breed composition and hybrid vigor - but we try our very best to evaluate each bull to assist you. We developed the following guideline for calving ease by evaluating many traits in making our recommendations:

- actual birth weight
- birth weight EPD
- Calving Ease and Maternal Calving Ease
- Dam's past birth weight and calving records on progeny
- Sire's birth weight and calving tendencies
- Bulls physical attributes.

This Calving Ease Guide is our most accurate prediction based on the above mentioned criteria.

Calving Ease 1 Cow Bull - Recommended for mature females only. Not recommended for heifers.

Calving Ease 2 Recommended for use on larger, well grown heifers only, expect to assist some normal births from first calf heifers.

Calving Ease 3 Recommended for heifers, easy calving with minimal assistance on normal births

Calving Ease 4 Highly recommended for heifers, expect little to no assistance on normal births

A Note about EPDs

CAA Average Black EPDs for all calves born in 2023

CAA Average Red EPDs for all calves born in 2023

BW	WW	YW	Milk	CED	CEM
2.0	54	95	23	3.5	6.8
1.2	43	74	25	2.7	5.4

The EPD's you find in this catalog are the product of Canadian AngusONE Genetic Evaluation. These EPD's are calculated in partnership with the American Black Angus Association. The aim of this brand new system is to eventually make ALL ANGUS in Canada- red and black-comparable with each other, as well as U.S. Black Angus cattle.

We listed BOLT EPD's on Red Angus Bulls on page 55.

A Note about Weaning and Adjusted Weights

BW-Actual Birth Weight, WW-Weaning Weight adjusted to 205 days, YW- Yearling Weights adjusted to 365 days

VOLUME DISCOUNTS

We are able to fill your needs whether you need one or a trailer load of bulls this year. We are pleased to offer the following discounts to those needing multiple bulls:

- 3 - 4 bulls 3% discount
- 5- 9 bulls 5% discount
- 10 or more bulls 10% discount

This discount will only apply to bulls that are paid for in full on sale day. Absentee buyers will have a 14 day extension for their discounts. Partnership bulls will not apply.

BREEDING SEASON WARRANTY PROGRAM

Our warranty program is now in its fifth year and was developed to help you protect your investment at a reasonable rate. Under our warranty your bull is covered for injury, sickness, accident, disease fertility, structural breakdown or death. Should such a problem arise- we will service your needs with a replacement bull or credit to next year's sale. We keep high quality bulls out of the sale for this reason, to ensure we can assist you our customer. We offer the following options to be paid the day of the sale. Maximum Value is \$15,000 or less.

OPTIONS:

Option 1- 3 Month Duration at 3% - we strongly suggest for bulls not going home on sale day

Option 2- 6 Month Duration at 6%

Callie Hertz will be available to discuss these options the day of the sale. If a problem is to arise please contact Callie immediately at 306-640-9275 or callie.sixmile@gmail.com. We will require a veterinarian complete a report.

EXCLUSION TO WARRANTY:

Six Mile will not warranty any injury or death due to malicious, willful or intentional acts of mistreatment.

Larry Toner with Stockman's Insurance will be available for all other Insurance Needs

GEARING UP FOR OUR

50th Sale

We are planning some big things to **Celebrate our 50th bull sale in 2025** with exciting giveaways and surprises for our loyal customers.

One thing already underway is allowing our volume buyer to "CREATE A CREDIT" where they will be credited \$100 for every bull they buy in 2022, 2023 and 2024 to use in our 50th Anniversary Sale.

Watch for other events and surprises as we celebrate this milestone.

Six Mile **EST 6M 1949**

Where Customers Become Friends

L83 Ranch – The Lodoen Family – exhibited a pen of 3 bulls and a pen of 3 heifers at NWSS all sired by Six Mile GSF Jolt 452j. We are so proud of the friendship and working relationship that stems many generations with the Lodoen family.

"The heifer we bought in your bull sale last year just had a backwards calf and was an easy pull. Hayden's 4-H heifer is also bred to the bull we bought last spring and it was the perfect size calf for a heifer. Very happy

with the bull and heifer we bought at the sale in the spring! Both are extremely quiet and easy to work with!"

Duane Clermont – neighbour and customer

T & S Farms had the Reserve Champion Red Angus Pen of Bulls at Yorkton Harvest Showdown 2023. These bulls were sired by Red Six Mile Johnny Ringo 267G and Red Six Mile Fifth Sense 304j. These were born at 72 lbs, 76 lbs and 77lbs. Congratulations to the Hunt Family.

A son of Six Mile Droptine 811G topped the Sandy Bar Bull Sale in 2023.

Congratulations to Colborn Farms on their Champion Pen of Bred Heifers at CWA in 2023! The Colborn family have been buying Red Angus bulls and females from us the last few years! We appreciate their support and enjoying visiting their impressive operation!

An exciting herdsire prospect leads the way in our 49th Annual Bull Sale. The first red hided offspring from Scheifelbien Showman 338! A standout from an early age, Showman 87L anchored our Reserve Champion Pen of Bulls in Denver with his blood red color, shapely design, and added spine length.

Showman 580H was created specifically to add Showman to the red gene pool. He was an ET bull from the great matriarch donor, Frado 209U. Her influence can be noticed in the lineage of high sellers across North America.

The dam of Showman 87L, Goldie 104E, is a hard-working ranch cow that comes from a long line of youthful, sound structured Six Mile females that are very striking on the profile.

We are excited to implement Showman 87L into our breeding program.

Balanced in every aspect, Mr. Wick 77L checks all the boxes of a big time herdsire candidate. He blends phenotype and genotype at the highest level; sporting a captivating presence, sound athletic structure along with a chart topping EPD profile. Lot 2 is backed by one of the strongest maternal lineages of any bull in the sale, the great Frado cow family. His first calf heifer dam, Frado 401J exhibits a tight and tidy udder, flawless skeletal structure and beautiful Angus head. She weaned this stud off with a 123 wean ratio while catching back AI first cycle.

Calving Ease with Explosive Growth

Mr. Oak 169L, a dark red son of the great Mossy Oak and a member of our Reserve Champion pen of bulls at the National Western. He moves out like a true breeding bull with added athleticism and flexibility. The first Mossy Oak daughters are now in production here at Six Mile and exceed expectations. Great maternal instinct, high milk production and maternal calving ease. Dam of Lot 3, Blockana 118H is a stunning Rolex daughter admired for her ease of flesh, picture perfect udder and added dimension. Her first daughter sold in Genetic Focus 2023 for \$15,000 and she boasts an average wean ratio of 103 on 2 calves.

Another blood red, high quality calving ease option is found here in Lot 4. An early standout, Mr Wick 32L was easy to find on pasture tours with his commanding presence and bold design. He exhibits a strong Angus skull shape and is backed by one of the most prominent cow families at Six Mile, the Lassie's. 624J is a cherry red female that we own with our good friends the Schmidt/Hadway's at Westway Farms. A hard-working first calving Northbound daughter with ample milk production and sound functional udder, Lassie 624J brought Lot 4 home with a 107 wean ratio.

Dam – Lassie 624J

One of the heaviest muscled Red Angus bulls that the breed has seen. Jumanji 45L is an outlier among his contemporaries with unmatched raw muscle mass and shear power. Another sale feature from the great Frado cow family. Frado 213F is now a CAA Designated Elite Dam this year. She is gunning to be the next Frado donor female here at Six Mile. She raises impressive calves each year. One daughter was purchased by Shelten Grabler, and a son sold through last year's bull sale to the good folks at Glenlees Farms. Average wean ratio of 111 on 4 calves.

A maternal masterpiece found here in Lot 6 with generations of Six Mile royalty backing him up. His dam was a past "show cow" where she claimed Top 5 Female honours at Farmfair International Supreme Show. Six Mile "show cows" have to earn their keep in the real world too- and Ms Extra 373H does just that. She weaned this stout rascal off with a 106 ratio and bred back first cycle. Enforcer 204E was a past high seller to Circle 7 and Soderghlen. Look for Lot 6 to make heavy muscled, stout constructed steers and replacement females that will make your neighbors jealous.

Another feature bull from the Frado cow family! This ET calf may have an old school pedigree but his build is modern and right for the times. Lot 7 is a dark red, heavy muscled, big backed rockstar with unmatched pen presence. The influence of his donor dam Frado 133B, was quickly established here at Six Mile with 4 high octane daughters retained in herd. She is the maternal granddam of a long list of notable offspring including Private Stock at ST Genetics and Frado 90K Reserve Champion Female CWA 2023.

Sire – John Wick 882E

Red Angus bulls are not built like this. Mr Wick 255L is the pen performance leader and an absolute stud. Impressive from every angle, massive hiped, huge ribbed and heavy structured; this dude is a complete outlier and needs to be studied in the flesh to be appreciated. His donor dam, Cheta Girl 144B was a powerhouse producing donor female with added stature, big solid feet and extra length of spine. We have 3 impressive daughters retained in herd.

Impressive from every angle

Dam – Cheta Girl 144B

Another performance leader, Lot 9 will undoubtedly add pounds to a calf crop while keeping maternal traits in check. He's just a March born bull that hangs with the big dogs in terms of shape and dimension. His dam, Ruby 233E, is simply stunning; commanding attention in the pasture with her dark red color, sweeping rib cage, beautiful udder and great feet. Her John Wick son was selected by Shiloh Cattle in 2021 as a feature bull and her Stark son made the trek to Mexico from last year's bull sale. Average wean ratio of 112 on 4 calves.

Lot 10 is a heavy muscled, good looking, shaggy haired direct son of the great John Wick 882E. Another early standout from a tidy uddered, awesome footed first calf heifer that worked hard and bred back early. Dixie 714J weaned this calf off with a 120 wean ratio and stems back to our donor female Dixie 546C, who is the dam of Lot 80. Year after year the John Wick sired bulls sort themselves to the top of the pen.

Granddam - Dixie 546C

A cow that needs little introduction, donor dam Alana 13X has cemented her legacy in the Red Angus breed. Her track record would rival the best of any cow that has stepped foot on Six Mile Ranch. One of her last ET calves is represented here in Lot 11. Mr Made 826L is all beef; muscled up, bold and expressive, with an extra shot of spine length.

A dark red powerhouse. Lot 12 is a top performing son of the heavy weight Wicked Stick 272G, a past Six Mile Bull Sale feature selected by Hillcrest Colony. Wicked Stick offspring offer extra stretch and frame with perfect foot design. Lady 317E is a direct daughter of the great Lady 2X donor cow at Duff Cattle. 317E is a moderate statured, awesome structured, beautiful uddered female with added shag. A son sold through the bull sale in 2021 to Spencer and Sarah Kirby. Average wean ratio of 102 on 5 calves.

Mr Wick 207L will be one of the best “purple” bulls you will find on offer this spring. An outlier in terms of growth, power and phenotypic quality. Big footed, heavy structured and as sound as a lynx; this dude is the real deal. His dam, Flower 321F is a large statured, long-spined, youthful female with a picture-perfect udder that Unanimous is known for producing. 2 daughters were retained in herd. Average wean ratio of 104 on 4 calves.

Feature Black-Red Carrier

“The black red carrier bull (234G- POE) I picked up a few years ago is starting to make a big impact. I have a March born grandson out of Royal Touch’s full sister. Neatest calf I have ever seen at this stage. POE’s daughters are far better than expected, too. Some of the nicest we have. 234G will go down as my smartest bull buy to date”
 ~ Tannon Dvorak of Dvorak Brothers Ranches

Sire – John Wick 882E

Maternal Grandsire – Unanimous 586B

18

Lot 18 RED SIX MILE SUN **NORTHBOUND** 56

Dam – Fanny 149D

A big framed, stretchy outlined bull here in Lot 19. A new sire for us this year is Northbound 582H, a past feature selected by Duralta and Soderghen. Only two in this year's sale but they are both studs and we look forward to using him more this spring. Lot 18 traces back to donor dam Fanny 149D. She was a past highlight in our Genetic Focus sale and quickly entered the donor pen for us and Sunberry. She is phenotypically gorgeous being long-sided, extremely attractive fronted and having a great udder. She milks heavy and weans off big calves each and every year. Sons have previously sold to M Bar Ranch and Hansine Ranch. A daughter is working for Silvan and Courtney Stamm. Two daughters are retained in Six Mile herd as well as numerous females for Sunberry and Blairswest.

Sire – Northbound 582H

Cowboy's KIND

19

We think this calf is far better than his picture indicates. Northbound 137L is a wide load with added body and hair. But his best feature is his foot quality; dark toes with adequate heel and perfect shape. His CAA ELITE dam, Witzel 84F, unfortunately met an untimely demise this past fall. She was a dark red female, with great feet and tons of depth of body. Daughters have previously sold to Carlos Gutinereze and Corbin Reid and she boasted an average wean ratio of 107 on 4 calves.

Dam - Witzel 84F

25

76L is a sale feature to lead off the Lincoln sire group; he's easy to find in the pen. Bold and robust in his design, yet flexible and comfortable in motion, Lot 25 possesses an undeniable herd sire presence. His dam, 460J comes from the powerful producing Meg cow family from the great Bar EL herd. She weaned this calf off with an impressive wean ratio of 122, bred back early, and has another stud calf at her side right now!

26

A soft sided, easy keeping stud here; keep all his daughters. Lot 26 offers a unique pedigree combination with high level phenotype. His dam, Shadow 151F is a stout featured, big-barreled cow. She is a survivor too- a few summers ago she found a sink hole and somehow managed to survive in mud up to her neck until we found her and managed to pull her out! A daughter of hers sold as a feature lot in Genetic Focus 2022 to Dustin Buchert.

Dam - Shadow 151F

The Lincoln daughters have hit production here at Six Mile and they are stunning! Flawless udder structure and teat size with high maternal instincts and calving ease. Lot 27 adds maternal value to the mix with his awesome Rolex dam. 34H is a hairy, dark red and exhibits an elegant front end, lots of length of spine and is sound footed. Lincoln 204L is good looking, balanced and sound structured with a mellow temperament.

- calving ease option, low input, moderate stature, added spine length,
- Lana 780J exhibits an ideal udder that has become a staple of the Gentry daughters. She is moderate in stature, deep dark red with a mellow disposition. She weaned this calf off with a 107 wean ratio.

37

Another new sire group here at Six Mile is the Captian's. They start small and grow well. Lot 37 is an ET calf from our Marta 928E donor. She is writing her own chapter in the "Marta Donor Book". We love the power and stature she injects into her offspring while keeping a very sound structure. Captain 276L is a high performance, big topped, stretchy made herdsire prospect. He carries himself with authority in the pen. Flushmate sisters were a feature choice lot last fall In Genetic Focus 2023.

38

Lot 38 is a bull that offers a huge set of EPD's while maintaining a high-level phenotype. He ranks in the top 10% for CE, BW, WW & YW. His dam, Annie 108E is a powerhouse producer who transmits length of spine, muscle shape and solid foot design into her progeny. The Lodoen family at L83 ranch selected a maternal brother to Lot 38, Six Mile Jolt 452J, in the 2022 Bull Sale and recently exhibited a pen of heifers and pen of bulls at the National Western Stock Show, all sired by Jolt 452J! Maternal siblings to Lot 38 have also found homes at Riverside Angus and Paul Murray's. Average wean ratio of 109 on 4 calves.

- dark red, heavy muscled, shapely, high maternal option
- the matriarch of the Frado cow family at Six Mile, 209U has proven herself time and time again. Her daughters produce quality stock every year and have entered donor programs at Six Mile and other leading purebred operations. This is the last natural calf from Frado 209U; when she took her last trailer ride, she still was as sound structured as ever with big square toes. She will go down as one of the most influential cows at Six Mile.

- performance oriented, powerful structure, cow bull
- Cheta 527D is a definite survivor. A couple falls ago she was unaccounted for in the inventory and we presumed she had died on pasture after weaning her calf. We were certainly surprised late the next spring when we went down south and saw her come over the hill with a calf beside her!! Sons have sold to Creekside Ranch and Gavelin Farms. Average wean ratio of 107 on 6 calves.

- great foot design, maternally oriented pedigree
- Cresta 393E is a heavy milking, dark footed Reckoning daughter with a feminine front end.

GALLEON / IMP 1229J / CAA #2280751

Galleon is a bull we own with the Oberle family of Circle 7. He adds length of spine, sound structure, solid feet and a proud presence to his calves. Galleon daughters and sons both have us very excited to continue implementing him in our program.

HONOUR / YDF 16H / CAA #2184341

Honour was selected from Youngdale Farms in 2021. He is a calving ease option who adds tons of hair to his progeny. Both sons and daughters are easy to identify as they have a proud presence to them. Daughters are now hitting production and we are happy with their easy keeping kind, moderate frame size and tight, tidy udders.

SHOWTIME / SIXM 80H / CAA #2163634

Showtime is the Showman son that we have implemented back into our Angus program. He is owned with Everblack Angus. Showtime progeny are born easy and exhibit great hip shape and hair. His first daughters have now calved and we are very happy with their maternal instincts, udder structure and fleshing ability.

PRINCE / IMP 178H / CAA #2236614

Prince was utilized in our program to add the pedigree of Bubs Southern Charm. We sadly lost him too soon as we do really like the shape and soggy build that he left in these extra age bulls on offer.

BLACK ANGUS EXTRA AGE BULLS

93

- This set of black 2-year old bulls is as good as we have produced.
- a meat wagon, big bodied, sound and proud
- 407D is a heavy milking, soggy middled cow. A daughter sold to Honeybrook Farms in 2019.

An absolute unit that offers so much quality. Lot 97 anchored our pen of Angus bulls at the National Western Stock Show this past January. His body, dimension, foot quality and structural integrity makes him a definite herdsire prospect worthy of visual inspection. However, we feel his strongest attribute is the strength of dam, and cow family, that solidifies him as a breeding tool we look forward to utilizing in our program.

Blackbird 24D is from the highly productive and phenotypically impressive Blackbird cow family. She was Designated Elite in 2023. Previous sons have sold to Sayers Farms and Darren Manske through our bull sales. One daughter is retained in herd and another highlighted Genetic Focus 2021 for \$21,000. Average wean ratio of 107 on 5 calves.

A good looking, shaggy featured bull that moves like a cat. He's heifer approved and represents a new sire group here at Six Mile. Helix was our top pick from the 2022 Woodhill Spring Production Sale. He is a long bodied, perfect footed Stellar son with predictable calving ease. Helix offspring will be one of the largest 2024 sire groups here at Six Mile. Lot 99 is back by one of our favourite Crossfire daughters, Lady Lee 166E. She is a pasture favorite around here. Easy keeping, sound, big bodied with a picture-perfect udder. Daughters have sold to Graco Angus and Laramie Greenwood. Average wean ratio of 106 on 6 calves.

Dam – Lady Lee 166E

Sire – Helix

Maternal Sister – Lady Lee 281K

CALVING EASE with *All the Look*

100

Are you starting to see a trend here on the maternal side of the feature black bulls? Crossfire cows flat out work and you will see their influence even more through the Angus section of this book. Lot 100 is a ¼ brother to Lot 98, but with a shot more frame. His dam, Fanny 576F is perfect footed, big bodied and long spined. One son has sold to Dixon Grazing and a daughter retained in herd. Average wean ratio of 111 on 4 calves.

Dam – Fanny 576F

One of the largest birth to yearling spreads, Lot 101 started out at just 72lbs but took life by the balls after that; grabbing gears quicker than Walter coming down Poplar Hill in the old Blue Kenworth! Upgrade 179L was our high indexing bull at weaning and possesses more frame and stretch than his contemporaries. His young two year old dam, 346J is a Blackbird female from old 46Z, a cow that put sons into herds across Canada including Mar Mac, Riverside, Leaning Spruce, Kornfelds, Iron Plains and Checkowys.

A set of feature full brothers here from Duchess 172B and new sire, LT Galleon 1229. Galleon was our top selection from the 2022 LT Ranch Bull Sale. His outcross pedigree and highly productive and visually stunning dam made him a “must own” bull. He is transmitting his added spine length and superior foot quality to his offspring with lower-than-expected birthweights. We recommend a lot of his sons as heifer-safe due to their added length of spine at birth; we haven’t touched a single Galleon calf- even on heifers! Remember, birthweight is NOT always indicative of calving ease!

Duchess 172B is a flawless cow, but more importantly, produces at the highest level and proved she needed to be in our donor battery. Her sons always surface to the top of the bull sale; being selected by North Point Angus, Feser, Andersons and Rockin’ R Ranch. 172B is also a maternal sister to Duralta’s lead black donor that is responsible for the first 5 bulls in their 2024 Bull Sale.

A heavy muscled Stratton son here from a real nice Red Stone cow we purchased from the Meadow Acres dispersal. 207H is awesome footed, super deep sided with a refined teat size and great udder attachment. Her first daughter was retained in herd.

My kids affectionately named this bull "Angus". I don't think they fully realize how hilarious this name is. Anyway, we think "Angus" is a pretty good bull; Sound at the ground, long spined and heavy muscled with a great disposition. He's an ET calf from an Outsider donor we own with Serheinko Cattle and Premier Livestock. We have 2 full sisters and one maternal sister at Six Mile that the kids will drag around to a few shows... until we figure out how hard it is to keep these things clean!

COMMERCIAL OPEN HEIFERS

OPEN COMMERCIAL HEIFER CALVES sold in lots of 5 to 10. These Heifers are from the heart of our own commercial program and from our progressive customers. They will be both BLACK and RED Angus influenced females.

We are still accepting consignments from our customers if they are interested in offering open heifer calves. Contact Clayton or Corinne as soon as possible to join the list. In order to have the heifers videoed prior to the sale you need to consign by March 10th.

BIDDING: Each animal will be sold to the highest bidder. Whenever there are two or more bids the auctioneer will settle any disputes.

TERMS: The terms of the sale are cash. The right of property shall not pass until after the settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch. Financing terms are available if prior arrangements are made with Clayton and Corrine.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Cattle will be kept free of charge until May 1, 2024, when they are to be picked up or delivered. We strongly urge the buyer to insure any bulls left, as they are yours when the hammer falls.

INSURANCE: A Livestock Insurance Agent will be present to care for the insuring of cattle.

CERTIFICATE OF REGISTRY: A certificate of registry and transfer will be furnished on all cattle sold as registered animals. Six Mile will ensure all animals sold internationally are transferred in the proper country.

ANNOUNCEMENT: Changes of catalogue information relating to the animals offered for sale will be announced from the auction block and such announcements shall take precedence over the printed matter in this catalogue.

BREEDERS GUARANTEE: Six Mile Red Angus guarantees to sell you a bull that has passed a semen test and breeding soundness evaluation completed by a qualified, licensed veterinarian. However, should a problem arise, please let us know so arrangements can be made without delay. Should your bull fail to be a satisfactory breeder - as agreed upon by the buyer and seller - he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit given towards the purchase of another bull. Yearling bulls shall be guaranteed breeders for no more than 20 females. AGAIN, each bull has passed a semen evaluation, however, it is the buyer's responsibility to make sure that your new bull can physically service a female and can settle them. We will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the importance of insurance on your bull. At no time shall the seller's liability exceed the purchase price of the bull. In the event of any unlikely dispute the standard terms and conditions of the Canadian Angus Association will apply.

IDENTIFICATION: Each purebred animal carries a readable tattoo.

LIABILITY: Although every precaution will be taken to protect the safety and comfort of the buyer, neither owners, sale manager, clerks or anyone connected with the sales assumes any responsibility, legal or otherwise, for damage of any kind.

HEALTH STATUS: All Six Mile cattle have been under the following vaccine schedule: Birth: Vitaferst-Care, Nasalgen 3PMH, Branding: Vista Once SQ, Vision 8 Somnus, Pre-Weaning: Vista Once SQ, Vision 8 Somnus, Clean-UP II, fenbendazole dewormer, Yearling: Clean-Up II & Vira Shield 6+ Somnus (females)

US FUNDS & EXPORT: American money will be accepted at the most current rate of exchange on sale day and announced before the sale. Bulls will be export-tested for \$125 per bull and delivered as soon as possible following the sale.

RIGHT TO DRAW SEMEN: Six Mile reserves the right to in-herd semen uses on any bull sold in the sale. Semen Collection will be at our expense and buyer's convenience, with a minimum of 100 units collected.

DNA TESTING: Bulls have been DNA tested and Dam Verified with most being Parent Verified.

SIGHT UNSEEN PURCHASES AND GUARANTEE: If you are unable to attend our sale, but are interested in our bulls - We can take an order on any of the bulls in the sale. Our sales consultants can also help you make selections. Give Clayton, Corinne or Tyson a call to ensure the bulls you (or our sales consultants) have selected are ones we feel will work for you. If you have discussed your selections with Clayton, Corinne or Tyson before the sale, your satisfaction is 100% guaranteed. When the bull is delivered to you, you are under no obligation to take him should he not meet your needs.

DELIVERY OF BULLS:

We will continue to offer FREE DELIVERY for the first 500 miles. This is for all purchases paid for in full within 14 days of the sale date. (Unless other arrangements are made) We may not be able to deliver directly to your ranch location, but rather to a central location close to you, where you will meet us and pick up your bull. We will give you as much notice as we can prior to delivery. Beyond 500 miles, we will still coordinate delivery and will add the charge to each invoice.

Cost of Delivery Beyond 500 Miles

0-500 miles Free Delivery
 500 – 700 miles \$350 per customer (Up to 3 bulls)
 700 – 900 miles \$550 per customer (Up to 3 bulls)
 Over 900 miles – we will work with you to coordinate the remaining distance which will be your financial responsibility

If you are not ready to receive your bull when we arrange delivery to your area, we can keep your bull FREE OF CHARGE until May 1st. Following May 1st, we will charge \$3.50 per day per Bull until you are able to pick up. Please notify us if this is an option you need.

For all International Purchases (U.S. and Mexico) We will do all of the health and export testing required for a charge of \$125 per head which will be added to your invoice at time of sale. Delivery will be the same as any other, with the first 500 miles free and the balance being added to your invoice.

\$100 Rebate per bull will be offered if you pick up your bull at the ranch within one week of the sale and your purchase is paid for in full at that time.
